

Evaluation of Student Learning

Program	Emergency Management AAS (A55460)
Evaluation Period:	2022-2023
Contact Person Name/Email:	Lee Ennis, lee.ennis@rccc.edu

List all Program Learning Outcomes

1. Demonstrate competence as advanced level public safety professionals with scene and disaster management skills.
2. Demonstrate a strong foundation of technical and professional knowledge as public safety professionals.
3. Demonstrate the skills and knowledge necessary to plan, mitigate, respond, and recover to emergencies and disasters with an all hazards approach.

Support of College Mission Statement: The Emergency Management curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance. Employment opportunities

include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

Outcomes for Programs

I. PLO	II. Courses associated with the PLO	III. Methods of Assessment and Target (Short description of each assessment used to assess each outcome) Identify the target you hope to achieve.	IV. Assessment Results and Analysis of Results (include data and discuss the results).	V. Use of Results: Changes to be implemented next cycle.
Demonstrate competence as advanced level public safety professionals with an understanding of community vulnerability to and management of disasters.	EPT 120 Sociology of Disaster, EPT 230 Emergency Planning	90% of EPT 230 students will successfully complete a Hazard and Vulnerability Assessment using their community for assessment purposes.	100% of EPT 230 students successfully completed a Hazard and Vulnerability Assessment using their community for assessment purposes. This assessment is a good indicator of students' understanding and knowledge of vulnerability assessment using EM specific tools to gather data and specifically assess a community.	This assessment will remain in place and continue to be utilized as an assessment of students' knowledge and understanding of community vulnerability.
