

# Become a LEAD-SAFE CERTIFIED RENOVATOR

Homes and other buildings built before 1978 are likely to contain lead-based paint. Renovation, repair, or painting work done in those facilities could release hazardous lead dust which can be harmful to both adults and children. EPA's Lead Renovation, Repair and Painting (RRP) rule provides important protections for you and also requires that you take certain actions to protect yourself and others.

EPA regulations now mandate that any contractor or maintenance staff, from plumbers to electricians to painters, who disturbs more than six square feet of lead paint, replaces windows or does any demolition while working in a pre-1978 home, school or day-care center, must now be Lead-Safe Certified and trained in lead-safe work practices.

INITIAL CLASS  
8:00 a.m. – 5:00 p.m.  
**Friday, Sept. 27**

North Campus | Bldg. 400 | Rm. 4213

1333 Jake Alexander Blvd., S. | Salisbury

Tuition: \$70 | Datatel # 92248

**Rowan-  
Cabarrus**  
COMMUNITY COLLEGE

**Please register soon, as class size is limited!**

**704-216-RCCC (7222)**
