

Introduction to **Security Fundamentals**

This course provides an overview of the evolving field of cybersecurity, with an introduction to cybersecurity standards and law. Topics may include common cyberattacks, identifying threats, the response to these problems and basic principles of security and defending against cyber threats. Upon completion, students should be prepared to sit for the Microsoft Technology Associate exam in Security Fundamentals.

Tuesdays and Thursdays
5:30-8:30 pm.
January 28 – March 3, 2020
North Campus, Rm. 4126

This is a hybrid course with Tuesday classes meeting face to face and Thursdays meeting online.
